EXECUTIVE SUMMARY

Data and analytics leader with 5+ years driving enterprise-scale compensation intelligence at Charter Communications, overseeing the design, implementation, and governance of \$1.2B in annual variable compensation across 40,000 payees. As a founding member of the National Incentives team, I helped nationalize a fragmented regional program into a unified, data-driven operation — building the models, dashboards, and processes that now power incentive strategy across all Small Business sales channels. Recently led the team's adoption of Claude AI, AWS, and Kiro to streamline analyst workflows and automate reporting. A thought leader, Excel master, and trusted advisor to Directors, VPs, and SVPs, I am positioned to step into a Sr. Manager or Director role where analytical rigor meets strategic leadership.

KEY ACCOMPLISHMENTS

- ▶ Led the team's implementation of Claude AI, AWS, and Kiro to streamline business analyst workflows, automating manual reporting processes and accelerating time-to-insight across the incentives organization.
- ▶ Attracted \$38MM in client AUM in under three years at Merrill Lynch by developing targeted marketing campaigns and delivering white-glove service to HNW and affluent clients.
- ▶ Managed the complete accounting lifecycle for a \$250MM whole-loan portfolio for publicly traded REIT (NYSE: ARPI) — from asset acquisition through disposition — while maintaining accurate financial reporting.
- ▶ Grew a sales incentive program at WRSB 500% over three years to \$3MM+ annually by redesigning third-party installer compensation structures.
